Fence Off

2–4 player dots-and-boxes you play with friends on their own phones. No accounts, no server: room codes, QR join, peer-to-peer over WebRTC with the host as referee.

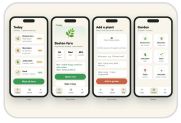

eniolagalileo-expert.github.io/thoughtpark/fence-off/

ThoughtPark

A bedtime app for parking the thoughts that keep you up. Type or say each one, let a calm AI companion file it, and find it waiting in the morning.

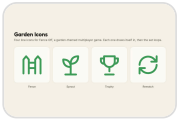

eniolagalileo-expert.github.io/thoughtpark-app/

Sprout design kit

Mood board, written design brief and four clickable phone screens for a plant-care app. Tokens, type and shape rules live in one file so every screen agrees.

eniolagalileo-expert.github.io/thoughtpark/sprout-design-kit/

Garden Icons

Four animated line icons (fence, sprout, trophy, rematch) that draw themselves in and loop in sync. One keyframe set, every path normalised to the same length.

app.joinhandshake.com/ai-showcase/projects/3672856

Pip the Sprout

A mascot that went from pencil sketch to four finished stickers: die-cut, kawaii, retro badge and holographic, all generated from one set of shapes.

app.joinhandshake.com/ai-showcase/projects/3673585

Frank-H-stein

A Halloween take on the Handshake "H": stitched, bolted and glowing green, delivered as light, dark and single-colour marks for a logo contest.
